

My name is Beverly and I attended the Zoom Alpha Class and absolutely loved it. I loved the videos which helped me so much to understand the basic concepts of Christianity. I had so many questions about the Bible and Jesus and God, and Alpha helped to not only answer my questions but to actually give me evidence and proof. The narrator and the people involved in the Alpha videos made me feel as if my questions were not silly and when I had more questions, Bill and Judy filled in with more detail and more evidence. It was so helpful as a new Christian and provided such a good baseline for me to move forward from, in my faith and my learning more about Jesus and who he was and where he walked. I would highly recommend Alpha to anyone who is inquisitive or just starting their journey with Christ.
