

RECIPE

Sensory Bottle

INGREDIENTS

Emptied water bottles made of plastic **THICKER** than a typical water bottle (ie: Sparkling Ice, Voss, or clear water bottles you can purchase online)

Warm water

Clear glue

Fine glitter in the color of your choice

Large glitter or confetti in shapes of your choice

Small funnel

Hot glue

Directions:

- 1 Fill the water bottle halfway with warm water.
- 2 Using the funnel, add 2-3 tsp of fine glitter.
- 3 Using the funnel, add 1-2 tsp of large glitter or confetti.
- 4 Fill the bottle the rest of the way with clear glue. Be sure to leave a small space at the top, so there is room for shaking the contents.
- 5 Seal the lid to the bottle by applying hot glue to the inside of the lid, and screwing it on tightly.
- 6 Allow hot glue to dry and cool completely before giving it a shake.

What to Do:

Print one for each kid.
